

A TESTIMONY FROM UNHCR IN EASTERN DRC

Dear Ladies and Sirs,

I hope this finds you well.

These last two days, following our capacity building programmes, took place a training for all the Human Rights Associations' representatives in our conference room. We also wished to invite the Civil society, unfortunately...

This training was organised by the UNHCR protection unit i.e. me and my supervisor and had the holistic goal of increasing comprehensively the understanding of the Human Rights in all the phases of our operations involving the human being.

In this regard, I deemed to introduce as well the "Youth for Human Rights approach" as part of our training. This approach was approved by the participants, approach which involves young people in the comprehension of the human rights.

At the same occasion, eight DVDs of the eleven recently left to me by Dieudonné Amisi were distributed to participants (please see hereunder the attachment). We pursue the campaign and hope to reach the goal as far as possible.

Thank you much for the collaboration and warm regards.

Adolphe MUSHIZI,
Protection Assistant UNHCR SO Uvira.
